PROJECTS

Zinda Online School

MongoDB | Express.js | React.js | Node.js | Socket.io | JWT | Cloudinary

a **full-stack MERN web application** that connects students with tutors through a secure and user-friendly platform. It features JWT authentication, role-based access control (RBAC), real-time chat using Socket.io, and Cloudinary integration for file uploads. The application provides a responsive interface and RESTful APIs for seamless learning and communication.

FastVote

MongoDB | Express.js | React.js | Node.js

is a **secure online voting platform** developed using the MERN Stack. It enables users to participate in elections through a responsive and intuitive interface while ensuring secure authentication and accurate vote management. The application uses RESTful APIs for efficient data handling and delivers a smooth, reliable voting experience across devices
